Garden Edge Profiles

Garden Edge Strip Profiles

Our Garden Edge Strips are manufactured from premium aluminium flat bar, delivering exceptional strength and long-lasting durability. The material is strong yet flexible, allowing easy forming into curves for clean, modern garden designs. Available in three heights: **80mm, 100mm, 125mm & 150mm** - all supplied with a uniform 3mm thickness for reliable performance.

SP20F
20mm Width
Strip Fixing Peg

SP40J
40mm Width
Strip Joining Peg

Color Options

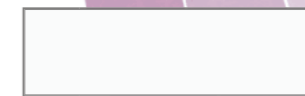

The Garden Edge System is available in three stocked finishes:

Silver Anodised

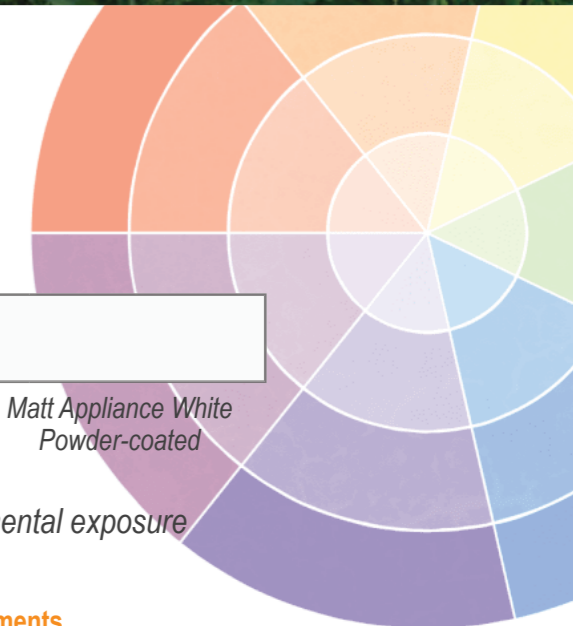

Matt Black
Powder-coated

Matt Appliance White
Powder-coated

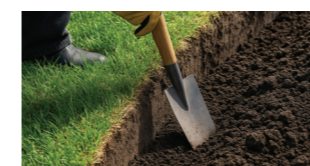

These premium finishes provide excellent protection against environmental exposure while ensuring a modern, stylish appearance.

* Custom colors are also available on request to suit specific design requirements.

Installation Guides

1. Clear away any existing edging or obstacles.
2. Mark out and plan the desired garden edge layout.
3. Cut a neat trench into the ground using a spade.
4. Position the Garden Edge strip into the trench and adjust the depth to the required height.
5. Secure the strip with fixing pegs, driving them firmly into the soil with a hammer.
6. For longer runs, use joining pegs to connect strips and create a seamless finish.
7. Corners can be formed by cutting and butting the strips together.
