# Garden Edge Profiles

DURABLE MATERIAL

EASY INSTALLATION

WEATHER RESISTANT

ECO FRIENDLY

## Garden Edge Strip Profiles

Our Garden Edge Strips are manufactured from premium aluminium flat bar, delivering exceptional strength and long-lasting durability.

The material is strong yet flexible, allowing easy forming into curves for clean, modern garden designs.

Available in three heights: **80mm, 100mm, 125mm & 150mm** - all supplied with a uniform 3mm thickness for reliable performance.

GM-NEWZ-80x3LB  
80mm Height  
Garden Edge Strip

GM-NEWZ-100x3LB  
100mm Height  
Garden Edge Strip

GM-NEWZ-125x3LB  
125mm Height  
Garden Edge Strip

GM-NEWZ-150x3LB  
150mm Height  
Garden Edge Strip

## Fixing & Joining Pegs

Our Garden Edge Pegs are crafted from durable aluminium and designed for fast, secure installation.

Each peg features a **280mm pointed stake** that drives firmly into the ground, providing strong anchoring in all soil types.

Available in two sizes:

SP20F  
20mm Width  
Strip Fixing Peg

SP40J  
40mm Width  
Strip Joining Peg

## Color Options

The Garden Edge System is available in three stocked finishes:

Silver Anodised

Matt Black  
Powder-coated

Matt Appliance White  
Powder-coated

These premium finishes provide excellent protection against environmental exposure while ensuring a modern, stylish appearance.

\* Custom colors are also available on request to suit specific design requirements.

## Installation Guides

1. Clear away any existing edging or obstacles.
2. Mark out and plan the desired garden edge layout.
3. Cut a neat trench into the ground using a spade.
4. Position the Garden Edge strip into the trench and adjust the depth to the required height.
5. Secure the strip with fixing pegs, driving them firmly into the soil with a hammer.
6. For longer runs, use joining pegs to connect strips and create a seamless finish.
7. Corners can be formed by cutting and butting the strips together.
