(200mm Overall Width
With 2 x Retaining Trim)

SL-455
Frame Corner Stake

GM-NEWZ-237
Retaining Trim Profile

Quick-change System Assembly Guide

FRAME ASSEMBLY
Join the Box Profiles using Corner Stakes to form the main sign box frame.

PRE-FIT RETAINING TRIMS
Install the Retaining Trims to three sides of the frame, leaving one side open for panel insertion.

PANEL INSTALLATION
Slide the sign panel into position through the open side of the frame. Then install the final Retaining Trim to secure the sign panel in place.

For future panel changes, remove one trim to slide the panel in or out — no need to dismantle the main frame.

CLASSIC Sign Box System

GM-NEWZ-241
102mm Width Box Profile

GM-NEWZ-242
150mm Width Box Profile

GM-NEWZ-243
200mm Width Box Profile

SL-455
Frame Corner Stake

Classic System Assembly Guide

FRAME ASSEMBLY
Join three sides of the Box Profiles using Corner Stakes, leaving one side open for panel insertion.

PANEL INSTALLATION
Slide the sign panel into the integrated retaining channels of the Box Profiles through the open side of the frame.

FINAL ASSEMBLY
Install the final Box Profile and secure it with Corner Stakes to complete the sign box frame and retain the panel in place.

For future panel changes, one side of the sign box frame must be disassembled to remove and replace the sign panel.

Colour Options

Our Sign Box Systems are available in three stocked finishes:

Silver Anodised

Matt Black
Powder-coated

Matt Appliance White
Powder-coated

These premium finishes provide excellent protection against environmental exposure while ensuring a modern, stylish appearance.

* Custom colors are also available on request to suit specific design requirements.
