

SD Aluminium **HEAT PUMP COVER** PRODUCT CATALOGUE

*Functional Aluminium Solutions
Designed for Protection & Style.*

2026-2027 Edition

The background image shows a dark grey, multi-tiered aluminium heat pump cover installed outdoors. On top of the cover is a long, dark planter box filled with various green and reddish-brown plants. The cover is situated next to a house with light grey horizontal siding and a white-framed window. The ground is paved with large, rectangular stone tiles. A semi-transparent green rectangular overlay is positioned on the right side of the image, partially covering the heat pump cover and the text area.

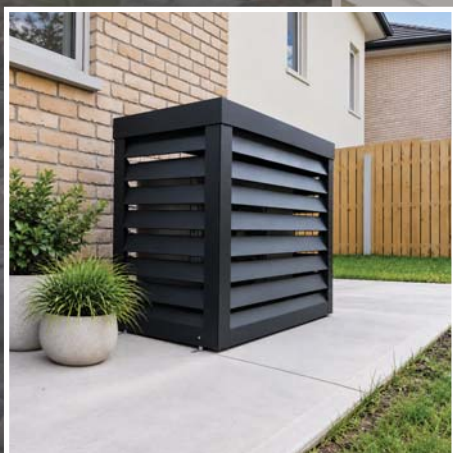

Our Story ...

At SD Aluminium, we supply, fabricate and install aluminium Heat Pump Covers for residential and commercial applications across New Zealand.

Our Heat Pump Covers are available in a range of sizes and configurations, with custom-made options available to suit different units, spaces and architectural styles. Dimensions and finishes can be tailored to meet specific project requirements, with selected models also available in different blade orientations.

Manufactured from durable, low-maintenance aluminium, our covers are designed for long-term outdoor use while maintaining effective airflow and a clean, modern appearance. From measurement and fabrication through to installation, SD Aluminium can provide a complete Heat Pump Cover solution for your project.

Heat Pump Cover System

Designed to fit a wide range of outdoor units from leading brands such as Mitsubishi, Daikin, Gree, Midea, and others — offering both protection and a sleek finish.

Installation Guide

Features **Extendable Mounting Brackets** that connect the frame to the wall with **200mm** of adjustable spacing. Perfect for areas with uneven surfaces or limited ground space, this method ensures flexibility and a clean, floating appearance.

Each post is fitted with a sturdy flange plate for secure top fixing. The frame is bolted down using **Coach Screws**, making it ideal for concrete or timber surfaces. This method offers a solid, permanent installation with minimal tools required.

Stocked Colour Options

The colours shown on the right are for reference only and may vary slightly from the actual product. A wider range of custom colours is also available to suit your specific needs

Key Features

- Strong, architectural-grade aluminium frame
- Optional WPC top with timber-look finish
- Corrosion-resistant and low maintenance design
- Clean look with mostly hidden fixings
- Secure wall or floor mounting options
- Wide range of powder-coated colour choices
- Custom sizes available to fit any unit
- 10-year residential use warranty included
- Available for delivery across New Zealand

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.
